---

## Profile Summary

---

- Motivated and detail-oriented Frontend Developer with hands-on experience in building responsive, user-friendly interfaces using HTML, CSS, JavaScript, and React. Strong understanding of UI/UX principles and performance optimization.
- Also experienced in frontend development with React, TypeScript, and tools like Git and Webpack, enabling full-stack contributions and building modern web applications. Skilled in setting up, efficient code and collaborating in agile teams.
- Passionate to contribute learning, currently deepening expertise in design patterns, micro-frontends, and DevOps practices.

## Relevant Skills

---

- React Programming
- JavaScript
- TypeScript
- HTML/CSS

## Experience

---

### INTERNSHIP

1. REFYX WEB APPLICATION | MyBlocks Company

June 2024 – September 2024

Role of REFYX:

- REFYX plays a central role in connecting employers, employees, and students, providing them with a platform to verify employment history and explore career development opportunities.
- It streamlines the verification process and offers guidance to students for their future careers.
- Developed responsive user interfaces using React.js to create seamless user experiences.
- Implemented component-based architecture and state management for scalable frontend solutions.

### FRONTEND DEVELOPER

2. Limit Scale Digital Private Limited

October 2024 – January 2025

Role as Frontend Developer:

- Completed an internship as a Frontend Developer at Limit Scale Digital Private Limited, where I enhanced my expertise in frontend development.
- During this time, I learned and applied React to build scalable applications while collaborating with a team on real-world projects.
- This experience provided practical knowledge in React, REST APIs, and state management, with a strong focus on writing clean, efficient code and contributing to impactful frontend solutions.

## Projects

---

### 1. Chataak – E-commerce Platform (React) <https://dev-app-chatoda-in.html>

- A chataak e-commerce application fully developed with React for the frontend.
- Designed and developed key modules including user authentication, product listing, shopping cart, order management, and admin dashboard.
- Developed REST APIs to handle dynamic user interactions and admin operations.
- Implemented security measures like role-based access control and token-based authentication.
- Utilized Redux for state management and React Router for navigation.

### 2. Workroom – Employee Monitoring Tool (Frontend with React) <https://work-room.in>

- A productivity and time tracking system built using React for frontend and responsive design.
- Focused on optimizing UI/UX with reusable React components for enhanced performance.
- Worked on improving database structure including strategies and data retention policies.
- Integrated business logic to generate insightful productivity reports and customized email summaries.

## Technical Skills

---

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Redux, Next.js

Backend: Node.js, REST APIs, Express.js

Databases: MySQL, MongoDB

Tools & Platforms: GitHub, Postman, Maven

Concepts: Full Stack Development, MVC Architecture, Responsive Design, Authentication & Authorization, Agile/Scrum

## **Education**

---

Anjalai Ammal Mahalingam Engineering College  
Bachelor of Engineering Computer Science - CGPA: 7.0

2020 – 2024

Neelan Matriculation Higher Secondary School  
Computer Science - Percentage - 58%

2019 – 2020
